

**FOR IMMEDIATE RELEASE**

**2Evolve Technologies, a Microsoft Cloud Solutions Provider(CSP) Partner, launches a new Client Immersion Experience powered by Microsoft.**

2Evolve Technologies' Vice President of Technology Consulting, Michael Young, is focused on expanding the firm's technology consulting practice in the Greater Omaha Area and on the national stage. "Michael brings such of vast array of technical experience and so many years of excellent customer service by implementing best in breed customer consulting solutions ranging from startups to Fortune 500, we all feel very fortunate to have him on our team. He will now have more of a focus on Enterprise Consulting and we are especially proud to say that Michael has a very rare and unique certification directly from Microsoft as a Certified Customer Immersion Experience Facilitator," Cindy Ried, 2Evolve Technologies' CEO, said.

As a Microsoft Cloud Solution Provider Partner, we can design, customize, implement and support secure industry specific solutions. Our approach is to design a cloud solution that has the ability to deliver a better user experience, save money, drive efficiency, and streamline your business.

"At 2Evolve Technologies, we provide Cloud and Microsoft Solutions combined with Managed and Consulting Services for the success of your startup to enterprise business," Michael said. "At our launch, we will demonstrate how we are focused to our clients experience as a partner and provider. This will change the space of technology consulting. We hope to see you there."
